

Our association has again this year celebrate the WHAW. Our propaganda included media presentation, lectures that were held in Novi Sad and Belgrade on the subject: homeopathy and mental health. We have used video footage that we had made in the past. Interview with Mahesh Gandhi:

We organized a humanitarian action during that week, in which we gave free treatment to patients with mental health problems.

A 52 minute long TV show was filmed for the Autonomous Province of Vojvodina's national television, with a detailed overview of homeopathy and our association as a member of the ECCH. We expect the show to be screened in May.
